The average amount of the leasing/rental payment for the economic year amounts to BGN 27.46 per decare. The receivables from rent and leasing payments for economic year 2010-2011 are insured by Bulgarian Export Insurance Agency EAD (BEIA).

## **II. Key risks and uncertainties facing the issuer during the rest of the financial year.**

Advance Terrafund REIT faces the common risks relevant to all public companies and economic bodies in the sector of real estate, namely the conjuncture of the market and more specifically the agricultural land market, the liquidity of the investments, the comparatively low use of the investment property. The expectations of the Company are that the influence of these risks will not be considerable as the agricultural land market becomes increasingly more dynamic and liquid, and the market relations in the sector are encouraged through subsidies for the agricultural producers, which has a positive impact on the sector at a time of global economic crisis.

As of 30 September 2011 the financial assets and investments are denominated in BGN and EUR and under the conditions of an established currency board in the country the exchange rate of the BGN to the EUR is fixed and does not create currency risks. As of this date the Company has no exposure to currencies different from BGN and EUR.

The Company invests a minimum of 80% of its portfolio in land designated for agricultural needs and up to 20% in land in urbanized territories. The agricultural land is exposed to low risk from changes in prices and rents. The potential reduction of the prices of agricultural land is favorable for the investment policy of the Company, and the fixed increases of the rental price as compared to the previous year increase the profitability of the investments. The increased risk in the sector affects mainly real estate designated for building construction and is a result of the global financial crisis. The present situation cannot pose a serious negative effect on the financial state and results from the activity of the Company; nevertheless it has undertaken measures for reduction of the share of property in urbanized territories with the aim of limiting the price risks.

### **III. Information about significant transactions between related parties.**

For the quoted period there are no major transactions between Advance Terrafund REIT and its related parties, other than those indicated in the interim financial statements.

Date: 27 October 2011
